A small, clever creature with pointy ears and a bushy tail. This animal is a skilled hunter, often active at night. Its tracks show four toes and a small paw print.

This graceful animal has long legs, and males have antlers. It's quick on its feet and lives in the forest. Its hooves leave two pointed, heart-shaped marks.

This bird loves the water and has webbed feet for swimming. Its tracks show three long toes pointing forward with a smaller one behind.

A strong, fast runner with powerful legs, this animal's hooves leave a round print on the ground.

Walking on two feet, this creature leaves footprints with five toes. The print is larger than most others, with a distinct heel and toe marks.

This friendly animal walks on four paws, leaving prints with four toes and a pad in the middle. Its tracks are similar to another small hunter but often larger.
